### Research & Development

**Luo Wenhua, Jiang Shuying**  
Study on the Simulation of Thermal-Structure Coupling on Retarding Disk and Analysis of Brake Component Model 13

**Li Tianjing, Lu Congxiang, Zhou Pengfei, Wang Yao, Shi Qingle, Zhang Xinjiang**  
Preparation and characterization of Cu-5%Ni-xC (x=2%, 4%, 6%, 8%) composite materials 20

**Wang Chao**  
Design and Modeling of a New Type of the NX-based 6-Roller Sugarcane Juicer 25

**Hu Yucai, Ben Nengjun**  
Research on Core Technical Transformation of Crankshaft Production Line for Marine Internal Combustion Engine 30

**Gu Qi, Su Hong-ling, Li Ming-liang, Hui Wei-dong**  
Research on the Surface Quality Evaluation of Racing Car Deflector with Highlight Line Analysis in Assembly Environment 34

**Nengjun Ben, Pengfei Zhou, Guojun Yan, Wenping Liang**  
Mechanical and Tribological Performance of TC4 Alloy with Surface Plasma Molybdenization 40

**Yan Guojun, Gu Jianhua, Ben Nengjun, Wang Lili**  
Research and Application of the Adaptive Agricultural Machinery Path Tracing Method Based on BP Neural Network 47

**Dong Rongwei**  
Remote Monitoring System of pH Detection Based on SI4432 52

**Sun Lixiang, Shan Xiuwen**  
Optimization of Control Algorithm for BLDCM in the Ship 57

**Zhang Xiao-wei**  
An Adaptive Mechanism of TFRC for Streaming Media Service's Transmission in Wireless Network 61

**Yingxing Wang, Yuanyuan Li, Chunxiang Huang**  
Design and Analysis of Doubly Salient Permanent Magnet Dual-Mechanical Port Motor for Offshore Ships 67

**Yurii N. Korobanov, Anatolii I. Kuznetsov, Alla A. Korobanova**  
Designs That Can Affect the Stability of Some Small and High-Speed Vessels 75

**Anatolii V. Derepa, Oleksandr H. Leiko**  
Analytical Studies of the Physical Fields of Hydroacoustic Stations with Linear Long-Length Towed Arrays Near the Sea Surface 84

**Kostiانتyn S. Trunin**  
Testing of a Computer Program for the Dynamics of the Model of a Marine Tethered System with Flexible Connection 95

**Serhiy S. Ryzhkov**  
Application of Three-Dimensional Modeling for Gradient Aerosol Technologies for Separating Ice Crankcase Gases 109

**Oleksandr S. Ryzhkov**  
Management of NUOS Education Quality in the "3+X" Joint Program with Zhejiang International Maritime College 121

**Anatolii V. Nadtochii** Planning the content management of the project of deep-water archaeological studies 132

**Volodymyr S. Blintsov, Maksym H. Hrytsaienko**  
Special features of management of the joint projects of water zone clearing by subdivisions of the state emergency service of Ukraine and organizations developing the means of marine robotics 141

**Marina B. Solesvik**  
Open Innovation In Maritime Industry 152

**Volodymyr N. Parsyak, Kateryna V. Parsyak**  
Economic Resources of the World Ocean 158
